Development
Experience

- Ruby On Rails
- HTML/CSS/SCSS
- JavaScript
- Java
- eCommerce
- Wordpress
- Magento
- Shopify
- React
- PHP
- NoSQL and SQL DBs
- MySQL
- MongoDB
- Postgres

Production
Management / Devops

- AWS / Azure
- Shared Hosting
- Cloudflare Workers
- Agile / Kanban
- Automated Backups / Data Retention

Additional
Skillset

- Adobe Creative Suite
- Slack
- Trello
- Git
- Script Automation
- Jira

About Me

I love seeing ideas go from concept to reality. Whether its a proof of concept, MVP, or full flagship product, I thrive on iterating swiftly and proactively.

In my spare time I enjoy golfing, hobby electronics (Raspberry Pi, Arduino), 3D Printing, CNC, HAM Radio, rocking on my guitar, or relaxing with some video games.

Work History / Education

2022 – Present
Morgan Stanley at Work

Software Engineer

Developer on the Shareworks by Morgan Stanley platform, including building new end-user features and the migration of system data from a retiring platform.

2016– 2022
PXP200

Developer / Production Manager

Built, repaired and maintained website and apps using a variety of technology stacks, but focusing heavy on e-commerce and CMS solutions.

2008– 2016
CR Bard (BD)

End User Technologist

Worked on a team to maintain and support all end-user systems (e.g. computers, phones, printers, network connections, etc…) for 500+ office employees, and 150+ remote employees.

2008– 2010
Utah Wedding Memories

Owner
Photographer / Videographer

Oversaw the main function of the business as a videographer and photographer. Also developed customer facing website.

2018
Harvard Division of Continuing Education

Managing Yourself and Leading Others

2006
Utah Valley University

Associate of Science (A.S.) General Studies
